

# DROP<sub>and</sub> TWIST

## Thermal Multi-Insert System

### PORTIONED CONTROLLED—healthy living

Inserts with included stopper lid, keeps food sealed, portion controlled and easily packable. Clear and Easy to see state of food and approximately how many ounces have been filled or what's still remaining.

### SEALED INSERTS TRANSPORT EASILY

Convenient. re-usable, sealable 16oz inserts can be packed and taken anywhere. Each Insert include a stopper lid that can be used with or without the thermal container unit. JUST GRAB and GO; All Inserts can be purchased separately in multi-packs. Disposable versions also available.

### PREP HEALTH FOOD in BATCHES for fridge or freezer

Cook or prep fresh healthy food from fruits to hearty meals that are all home made, then seal in multiple inserts for usage later by freezing or placing in the fridge for later or another day. Fridge or Freeze the inserts individually with included stopper lids.

### MICROWAVE REHEAT & COOL TOUCH RIM

Go from freezer or fridge directly to microwave. Inserts fit into thermal container keeping foods hot and cold longer for traveling with its patent pending 3 wall system. Swap out inserts at any time, and handle hot inserts with the cool touch rim. Change inserts anytime for different storage

### SANITIZE DISHWASHER CLEAN

The day is done, either bring the inserts back in the thermal unit or by themselves. Just Place the low profile inserts, stopper lids and top unit (if used without stopper lid) in the top rack of dishwasher and you are done. Inserts are designed with no crevices to Sanitize properly. **Necessarily Convenient.**
